Compressor Refrigerator  
BFC 96

RV  
REFRIGERATOR

20L freezer compartment to store fresh food for the whole family easily enjoy camping and barbecue

**SMALL SIZE  
LARGE CAPACITY**

## EXTENSIVE VOLTAGE AC/DC

Operates at 12/24V DC and 110-240V AC  
Automatically switches to AC mains  
to extend battery life when connecting  
AC power supply

- DC
- AC
- ▲

- SNOOZE
- QUICK COOL

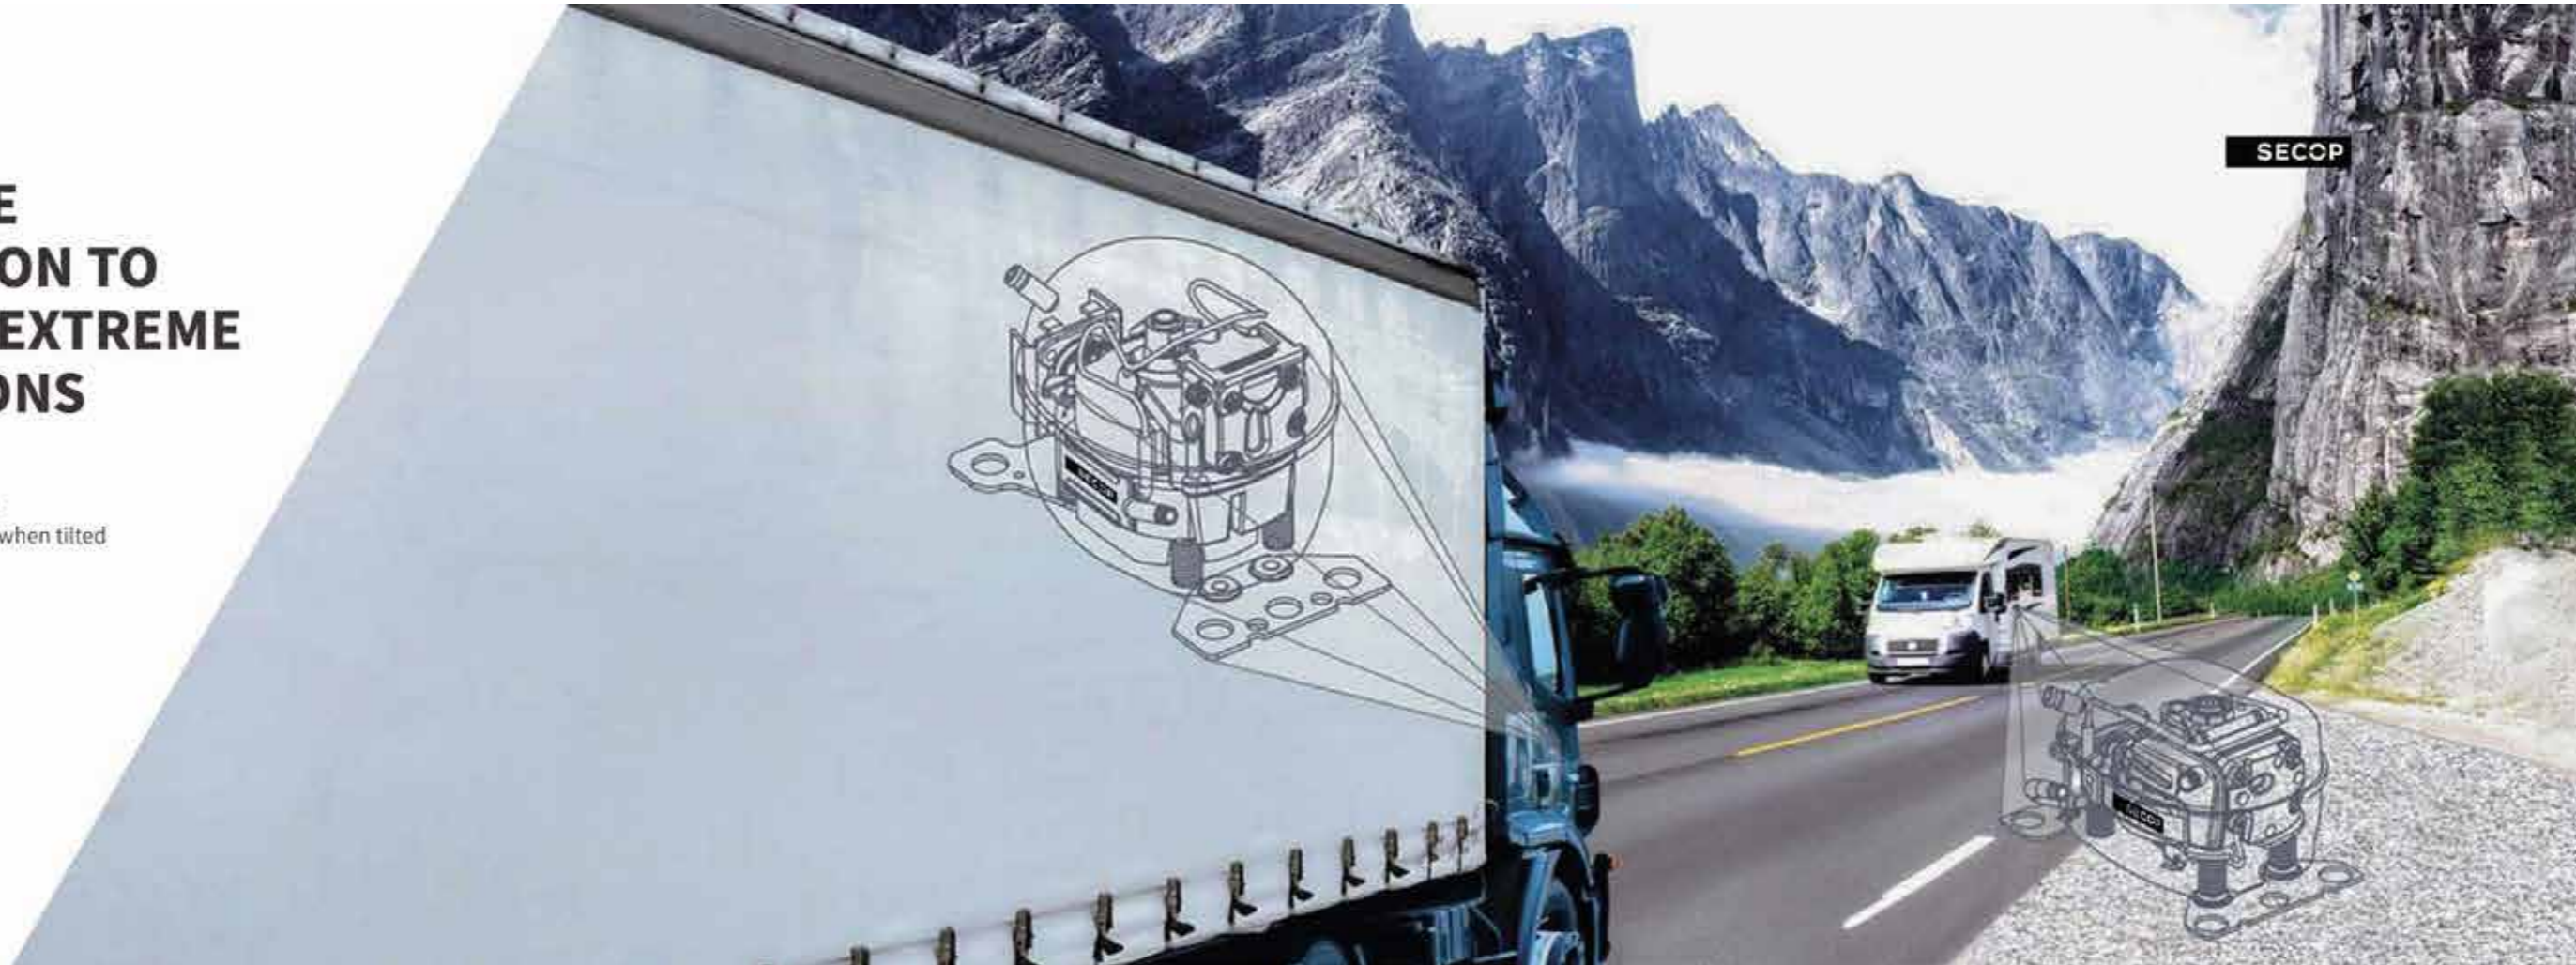

Secop compressor ensures outstanding refrigeration performance with minimal energy consumption

**ENERGY EFFICIENT  
ULTRA-SILENT  
OPERATION**

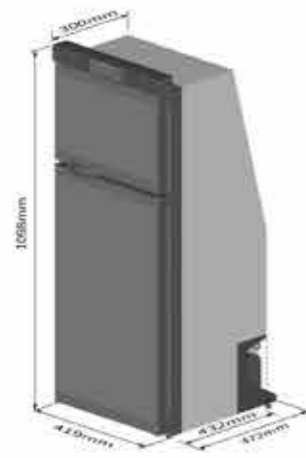

## RELIABLE OPERATION TO HANDLE EXTREME VIBRATIONS

Aseismic and anti-shake  
Reliable operation even when tilted  
up to 30 degrees

### COMPRESSOR REFRIGERATOR BFC 96

Adhering to Italian aesthetic concept, **ARANA BFC** series compressor refrigerator is designed with simplicity and perfect combination of compactness and practicability. Its reliable performance achieved by innovative technology lets you enjoy quality life at any time.

Equipped with Secop compressor, the compressor refrigerator can be operated at 12/24V DC and 110-240V 50/60Hz AC. Owe to its aseismic and anti-shake characteristics, it still operates impeccably in inclined position of 30 degrees, which is suitable for types of moving vehicles and boats.

- 96L capacity and small size for saving space
- 20L freezer compartment to store fresh food
- Top ventilation grille and slip-back design for different locations
- Reversible doors for different designs and layouts
- Replaceable door panel for colorful space

- Newly designed control panel operated by fingers, easy to use
- Recessed door grip with locking and ventilation functions
- QUICK COOL mode, strong cooling to meet fast low temperature demands
- SNOOZE mode, rest and sleep without noisy bothering

Gross volume	96L	Refrigerating temperature range	0° C - 18° C	Refrigerant quantity	34g	
Freezer storage volume	20L	Freezer temperature range	-10° C - -18° C	Dimension	419×472×1058mm	
Connection voltage	100V-240V	12V/24V	Climatic class	T	Weight	13.5kg
Power rating (daytime/night mode)	0.46/0.36kWh/24h	Noise emission (daytime/night mode)	33/28dB(A)	Foaming agent	C5H10	
Rated current (A)	0.5A	6A	Refrigerant	R134a	Inspection/verification	CE

Compressor Refrigerator  
BFC 185

RV  
REFRIGERATOR

## 185L STREAMLINED SLIM DESIGN

Being smaller width  
perfect space saver inside RV in horizontal

**73L  
EXTRA-LARGE  
FREEZING SPACE**

With storage boxes on the door of freezer compartment meeting different delicacy requirements in trip

Touching screen for precise temperature control, different foods are kept well with nutrition and delicacy

### SEPARATE TEMPERATURE CONTROL OF REFRIGERATOR AND FREEZER COMPARTMENTS

## LOWER CONSUMPTION AND NOISE EXCELLENT COOLING PERFORMANCE

Operating with 12/24V DC to lower power bills  
and protect the environment  
With specialized RV compressor, anti-shocking  
and shaking even driving on rough roads  
Keeping efficient working even  
with inclination of 30°

## PERSONALIZED SPECIFICATIONS

Replaceable door panels  
creating colorful and personalized living space  
Reversible doors for  
flexible inside designs and layouts

## THOUGHTFUL DETAILS

Innovative handle design with locking and airing functions  
Replaceable sealing strip, easy to clean keeping away from bacteria  
Built-in LED lamps in both refrigerator and freezer compartments to deliver clear and power-saving illumination

## COMPRESSOR REFRIGERATOR BFC 185

鮮凍

**FRESCO** compressor fridge, surmounting the traditional design, streamlined slim cabinet with large storing volume. Making full use of the extending upward space, practicality and aesthetic feeling are mixed together well, re-defining the new concept of RV layout.

RV specialized compressor fridge of high quality, with 12~24V DC power supply. Strong "heart" which bears of excellent performance, traveling life is being more cozy and relaxing.

We are fostering strengths and circumventing weakness, using the inside space of RV well, aesthetic feeling and practicality can not be split.

We are pursuing for comfortable outdoor life, super fresh-keeping capacity achieved by innovative technology, enjoying the delicacies blooming at the tips of tongue.

Gross volume	185L	Power Consumption under 32°C Ambient Temperature	0.65kW/24H	Refrigerant Quantity	R134a/110g
Freezer storage volume	73L	Refrigerating Temperature Range	0° C ~ 10° C	Installation Dimension	W419 x D508 x H1700 (mm)
Rated Current	0.5A/12V    ±25A/24V	Freezer Temperature Range	-5° C ~ -16° C	Weight	Net Weight: 45Kg ; Gross Weight: 53kg
Min. Starting Voltage	10.0V/12V    22.7V/24V	Climatic Class	T	Max. Tilt Angle	30°
Min. Working Voltage	10V/12V    21.3V/24V	Rated Power	80W	Dimming Time of Display	Without Operation for 5 Minutes

**LOW PROFILE  
AND COMPACT**

Only 252mm high  
after the installation  
reducing the overall height of RV

## NEW DESIGN PANEL OPERATED BY REMOTE CONTROL

Newly designed panel  
operated by remote control  
Air distribution in 4 directions  
switchable and adjustable

External fan with high air flow  
to ensure cooling performance  
at high temperature  
Internal fan with low rotate speed  
to ensure low noise

## DOUBLE FANS HIGH AIR FLOW

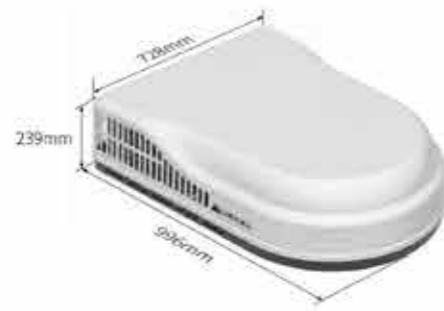

## R410A REFRIGERANT EFFICIENT AND ENVIRONMENT- FRIENDLY

Efficient and environment-friendly  
R410a refrigerant, reducing energy  
consumption and easy to maintenance

## ROOF TOP AIR CONDITIONER KAC 33

By adopting new design concept, **ARANA** KAC series roof top air conditioner continues the reliable performance and stable operation of last generation, with high performance and elegant appearance, showing the taste of life.

To combine the superior performance and appearance, and achieve value for money, is the only design principle for **ARANA** roof top air conditioner.

- Re-optimize the design of air duct structure, ventilating in four direction, strongly and rapidly
- Double fans operate independently, providing high air flow with low noise inside
- Low profile on roof top reduces the overall vehicle height
- Brand new control panel operated by remote controller, with the perfect blend of refined look and comfort

DELICATE AIR DISTRIBUTION PANEL

CONVENIENT AND INTUITIVE  
REMOTE CONTROL

HORIZONTAL COMPRESSOR WITH  
HIGH PERFORMANCE

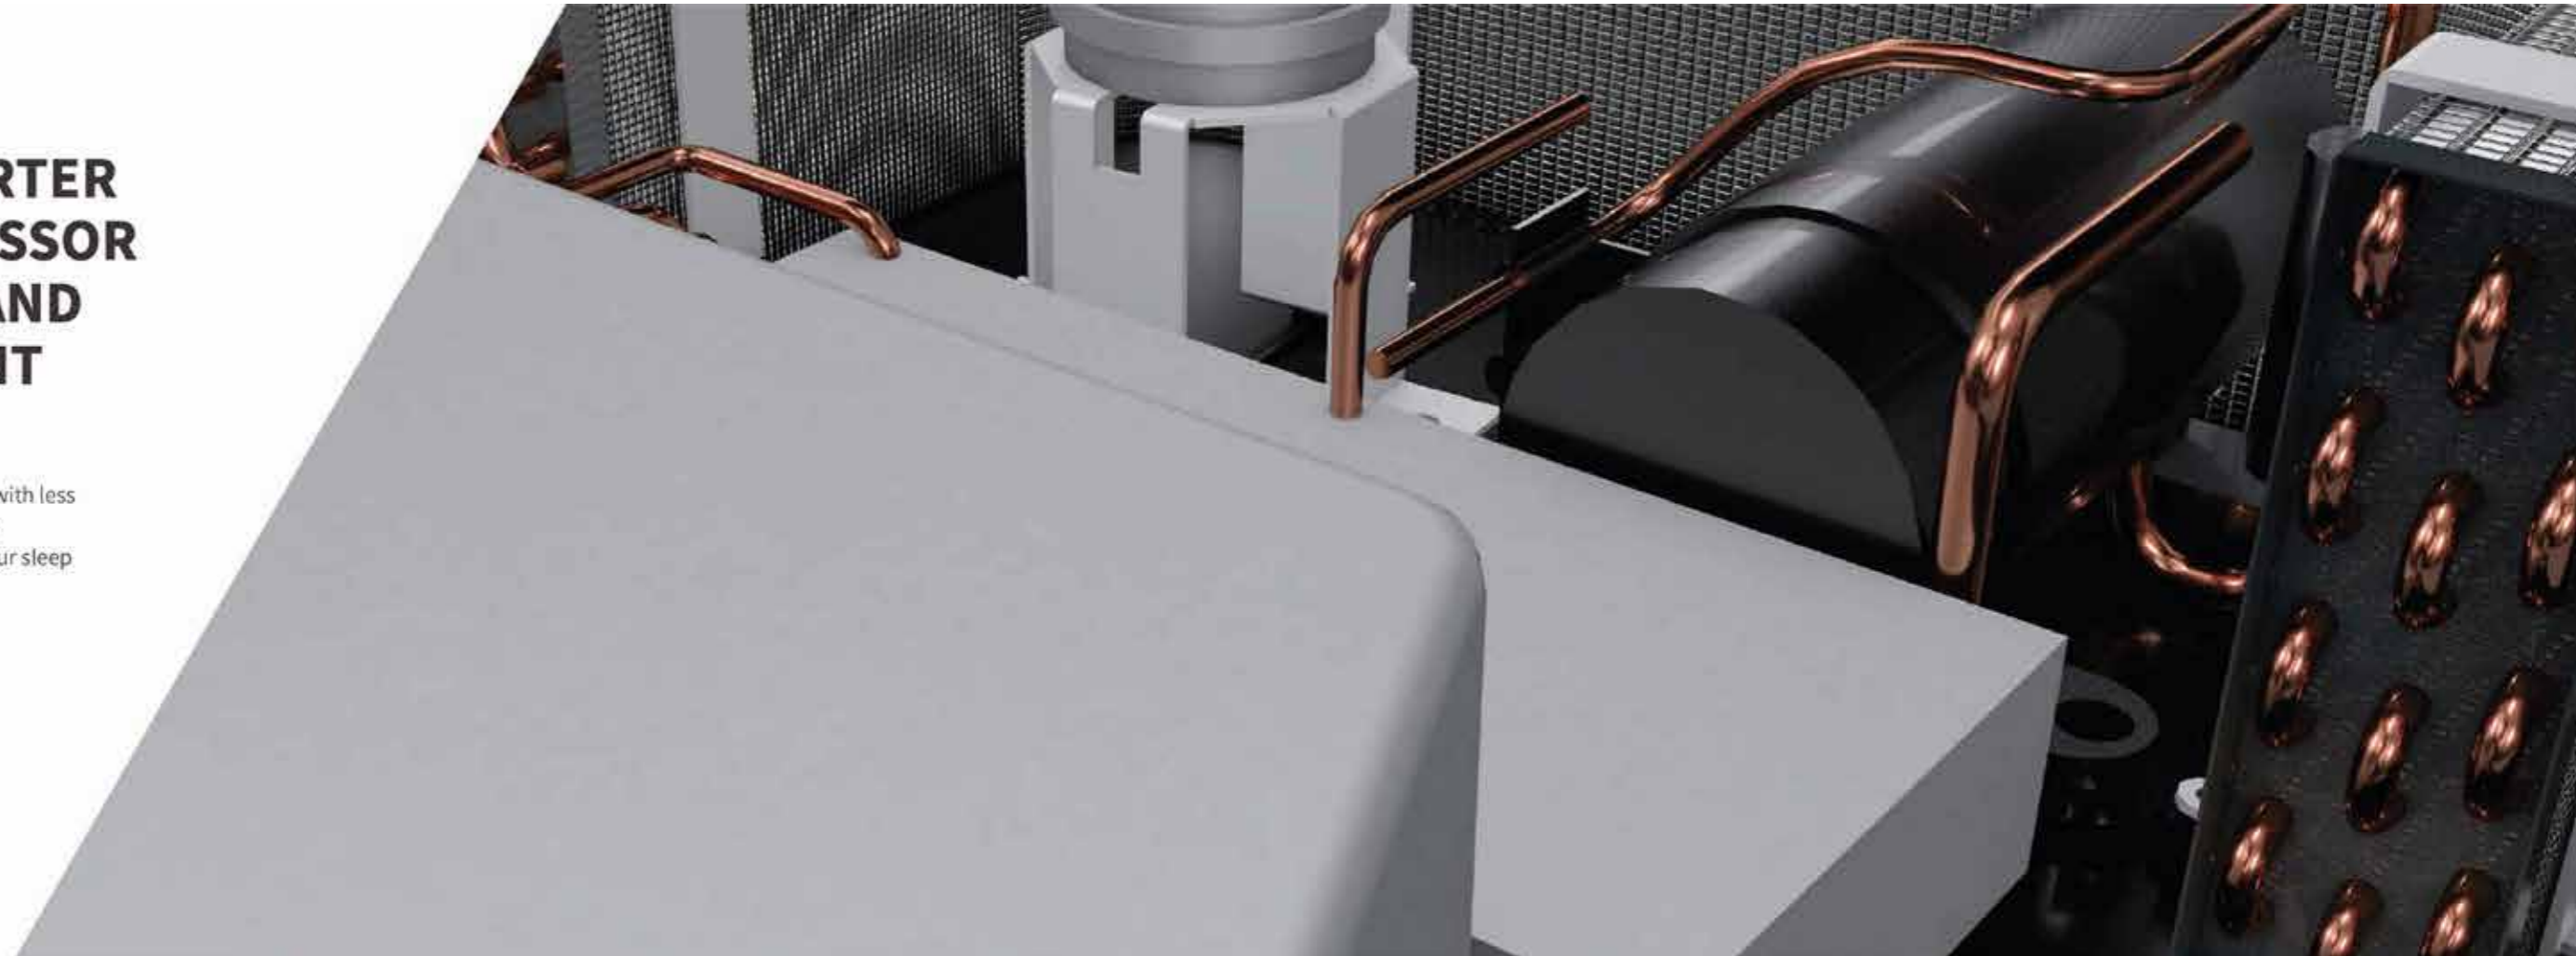

Type	Electric auxiliary heating	Input power Electric heater	2070W	Refrigerant	R410a
Control type	Remote control	Rated input voltage	220V-240V 50Hz	Refrigerant quantity	800g
Compressor cooling capacity	3180W	Power consumption in cooling mode	6.8A	Airflow high speed	480m <sup>3</sup> /h
Input power cooling	1460W	Power consumption in heating mode	9.1A	Dimensions L x W x H	306 x 728 x 239mm
Heating capacity	2900W	Starting current compressor	19A	Weight	17Kg

## DC INVERTER COMPRESSOR SILENT AND EFFICIENT

Dual-rotor compressor with less  
vibration and low noise  
quietly accompanies your sleep

5% air exchange rate  
to ensure fresh air circulation  
Plasma purification to sterilize and deodorize  
more care for the family

## FRESH AIR SYSTEM TO OFFER CLEAN AIR

## ENJOY COOL AND WARM STRONGLY AND RAPIDLY

Optimized duct structure  
for smooth air blowing  
High cooling air flow  
with low noise

High operating temperature  
range of -5° C ~ 52° C to  
guarantee a carefree journey

**HIGH PERFORMANCE  
OUTSTANDING  
QUALITY**

## SIMPLICITY DESIGN CREATED WITH INGENUITY

ASA housing, excellent weather resistance  
Sound absorption and lightweight  
Streamlined low profile design  
223mm on roof top

## RV INVERTER AIR CONDITIONER FRESCO

**FRESCO** inverter air conditioner is the third generation of RV air conditioner that ARANA has developed over three years, adopting the latest DC inverter technology and dual-rotor compressor, running more smoothly with less vibration and lower noise. With a fresh air system and plasma purification function, there is always fresh air circulation in the vehicle, and the temperature could be kept in a comfortable range.

- Dual rotor DC inverter compressor, efficient and quiet operation with less vibration and lower noise
- Fresh air system with 5% air exchange rate to circulate clean air and keep comfortable temperature for sleep
- Plasma purification function sterilizes and removes odor for a carefree journey
- Sleep mode not only energy saving but more care for your nights
- Streamline body with 223mm height, reducing vehicle height
- Optimized duct structure for smooth air blowing, high air flow for efficient cooling
- High operating temperature range of -5 °C - 52 °C to meet the cooling demand in extreme weather
- 485 interface with other devices to achieve intelligent centralized control of the vehicle
- ASA material housing, excellent weather resistant, sound absorption, lightweight and more durable

Type	FRESCO 30 / 36 / 40	Control type	Heat pump	Refrigerant	R410a
Compressor cooling capacity	2600W / 3000W / 3600W	Applicable temperature	-5° C - 52° C	Refrigerant quantity	800g
Input power cooling	1122W / 1280W / 1398W	Power consumption in cooling mode	5.1A / 5.8A / 6.3A	Blower	3 levels / 1 automatic
Heating capacity	2500W / 2800W / 3300W	Air circulation capacity	500m <sup>3</sup> /h	Dimension L x W x H	1075 x 720 x 223mm
Input power heating	1210W / 1356W / 1473W	Applicable maximum vehicle length	≤ 5m / ≤ 6m / ≤ 7.5m	Weight	38kg
